**ORDER**

APPLICATION 8986PERMIT 5083LICENSE 2182

ORDER ALLOWING CHANGE IN POINT OF DIVERSION

Licensee having established to the satisfaction of the State Engineer that the change in point of diversion under Application 8986, Permit 5083, License 2182 for which petition was submitted on June 30, 1944, will not operate to the injury of any other legal user of water, the State Engineer so finds, and

IT IS ORDERED that permission be and the same is hereby granted to change the point of diversion under said Application 8986, Permit 5083, License 2182 to a point of diversion described as follows, to wit:

NORTH TWENTY-THREE DEGREES, THIRTY-THREE  
MINUTES EAST (N. 23° 33' E.) EIGHT HUNDRED  
THIRTY-NINE (839) FEET FROM THE N.E. CORNER  
OF THE NW $\frac{1}{4}$  OF SW $\frac{1}{4}$  OF SECTION 24, T 17 N.  
R 5 E, M.D.B.&M., BEING WITHIN THE SE $\frac{1}{4}$  OF  
NW $\frac{1}{4}$  OF SAID SECTION 24.

WITNESS my hand and the seal of the Department of Public Works of the State of California, this nineteenth day of July, 1944.

EDWARD HYATT, STATE ENGINEER

BY

*Harold Conkling*  
Deputy State Engineer

STATE OF CALIFORNIA  
DEPARTMENT OF PUBLIC WORKS  
DIVISION OF WATER RESOURCES

## License for Diversion and Use of Water

LICENSE 2182

PERMIT 5083

APPLICATION 8986

THIS IS TO CERTIFY, That Browns Valley Irrigation District  
Browns Valley  
California

has made proof to the satisfaction of the Division  
of Water Resources of California of a right to the use of the waters of Tennessee Creek in Yuba County

tributary of South Fork Honeycut Creek thence Feather River

for the purpose of irrigation and domestic uses

under Permit 5083 of the Division of Water Resources and that said right to the use of said waters has been perfected in accordance with the laws of California, the rules and regulations of the Division of Water Resources and the terms of the said permit; that the priority of the right herein confirmed dates from  
June 4, 1937;

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to the amount actually beneficially used for said purposes and shall not exceed three (3) cubic feet per second from about April 1 to about October 31 of each season and throughout the remainder of the year as required for domestic purposes. In case of rotation the equivalent of such continuous flow allowance for any thirty day period may be diverted in a shorter time if there be no interference with other vested rights.

In accordance with provisions of Section 42 of the Water Commission Act, nothing herein shall be construed as confirming the right to use more than two and one-half (2½) acre feet per acre in any one year in the irrigation of uncultivated areas of land not devoted to cultivated crops.

The point of diversion of such water is located North twenty six degrees East (N. 26° E.) eight hundred forty three and seventy four hundredths (843.74) feet from the Northeast corner of NW¼ of SW¼ of Section 24, T. 17 N., R. 5 E., M.D.B. & M., being within the SE¼ of NW¼ of said Section 24.

*Amended by order 7-14-44*

A description of the lands or the place where such water is put to beneficial use is as follows:

20,000 acres within Townships 16 and 17 North, Ranges 4 and 5 East, M.D.B. & M., as shown on that certain map entitled "Map of Browns Valley Irrigation District" filed with the Division of Water Resources, November 8, 1937.

All rights and privileges under this license including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the Division of Water Resources in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the Division of Water Resources.

The right to the diversion and use of the water aforesaid hereby confirmed is restricted to the point of diversion herein specified and to the lands or place of use herein described.

This license is granted and said appropriator takes all rights herein mentioned subject to the terms and conditions set forth in Section 20 of Chapter 586, Statutes of 1913, as amended, which is as follows:

SEC. 20. All permits and licenses for the appropriation of water shall be under the terms and conditions of this act, and shall be effective for such time as the water actually appropriated under such permits and licenses shall actually be used for the useful and beneficial purpose for which said water was appropriated, but no longer; and every such permit or license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this section and likewise the statement that any appropriator of water, to whom said permit or license may be issued, shall take the same subject to such conditions as therein expressed; *provided*, that at any time after the expiration of twenty years after the granting of a license, the state or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the state shall have the right to purchase the works and property occupied and used under said license and the works built or constructed for the enjoyment of the rights granted under said license; and in the event that the said state, city, city and county, municipal water district, irrigation district, lighting district or political subdivision of the state so desiring to purchase and the said owner of said works and property can not agree upon said purchase price, said price shall be determined in such manner as is now or may hereafter be determined in eminent domain proceedings. If it shall appear to the state water commission at any time after a permit or license is issued as in this act provided that the permittee, or licensee, or the heirs, successors, or assigns, of said permittee or licensee, has not put the water granted under said permit or license to the useful or beneficial purpose for which the permit or license was granted, or that the permittee or licensee, or the heirs, successors, or assigns of said permittee or licensee, has ceased to put said water to such useful or beneficial purpose, or that the permittee or licensee, or the heirs, successors or assigns of said permittee or licensee, has failed to observe any of the terms and conditions in the permit or license as issued, then and in that case the said commission, after due notice to the permittee, licensee, or the heirs, successors or assigns of such permittee or licensee, and a hearing thereon, may revoke said permit or license and declare the water to be unappropriated and open to further appropriation in accordance with the terms of this act. The findings and declaration of said commission shall be deemed to be prima facie correct until modified or set aside by a court of competent jurisdiction; *provided*, that any action brought so to modify or set aside such finding or declaration must be commenced within thirty days after the service of notice of said revocation on said permittee or licensee, his heirs, successors or assigns. And every licensee or permittee under the provisions of this act if he accepts such permit or license shall accept the same under the conditions precedent that no value whatsoever in excess of the actual amount paid to the state therefor shall at any time be assigned to or claimed for any permit or license granted or issued under the provisions of this act, or for any rights granted or acquired under the provisions of this act, in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or licensee, his heirs, successors or assigns or by the holder of any rights granted or acquired under the provisions of this act, or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the state or any city, city and county, municipal water district, irrigation district, lighting district or any political subdivision of the state, of the rights and property of any permittee or licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this act. The application for a permit by municipalities for the use of water for said municipalities or the inhabitants thereof for domestic purposes shall be considered first in right, irrespective of whether they are first in time; *provided, however*, that such application for a permit or the granting thereafter of permission to any municipality to appropriate waters, shall not authorize the appropriation of any water for other than municipal purposes; and *providing, further*, that where permission to appropriate is granted by the state water commission to any municipality for any quantity of water in excess of the existing municipal needs therefor, that pending the application of the entire appropriation permitted, the state water commission shall have the power to issue permits for the temporary appropriation of the excess of such permitted appropriation over and above the quantity being applied from time to time by such municipality; and *providing, further*, that in lieu of the granting of such temporary permits for appropriation, the state water commission may authorize such municipality to become as to such surplus a public utility, subject to the jurisdiction and control of the railroad commission of the State of California for such period or periods from and after the date of the issuance of such permission to appropriate, as may be allowed for the application to municipal uses of the entire appropriation permitted; and *providing, further*, that when such municipality shall desire to use the additional water granted in its said application it may do so upon making just compensation for the facilities for taking, conveying and storing such additional water rendered valueless for said purposes, to the person, firm or corporation which constructed said facilities for the temporary use of said excess waters, and which compensation, if not agreed upon between the municipality and said person, firm or corporation, may be determined in the manner provided by law for determining the value of property taken by and through eminent domain proceedings.

Witness my hand and the seal of the Department of Public  
Works of the State of California, this 1  
day of March, 1941
